ViewByZipRadioButton is selected

The screenshot shows the 'Address Allocation' page with the 'View by Zip Code' radio button selected. The interface includes a sidebar with various menu items like Admin, Call Center, and Payment & Invoicing. At the top, there are dropdowns for Project Type (Coding and Chart Retrieval), State (All), and Special Handling Codes. Below these are two tables: one for 'Allocate by Zip Code' showing data for Zip Codes 84023, 84133, and 84033, and another for 'Allocate by Area Code' showing data for Area Codes 312, 415, 650, 707, 800, 844, 877, and 916. A central table titled 'Allocation Summary' lists agents with their total addresses, unmatched addresses, total cases, and modified on dates. The 'Allocate' button is visible at the bottom right.

SpecHandDropDown is disable

This screenshot is identical to the previous one, but the dropdown menu for 'Allocate by Zip Code' is now open, revealing options: 'View by Zip Code' (which is checked) and 'View by Area Code'. The rest of the interface remains the same, including the sidebar, top navigation, and central allocation tables.

Header Elements are Checked.....

Area Code table is disable

The screenshot shows the 'Address Allocation' page with the 'View by Zip Code' radio button selected. The 'Allocate by Area Code' table is now disabled, appearing as a greyed-out version of the original table. The rest of the interface, including the sidebar, top navigation, and other allocation tables, remains consistent with the previous screenshots.

Checked Area Code table visibility

A red error message box at the top right says "Please select atleast one Address count". Below the tabs are dropdown menus for "Area Code" and "Agent", and a "Select Agent" button. The "Allocation Summary" table shows three rows: "Arc.Agent", "N.Agent", and "Net.CAgent".

Allocate Button is displayed

The screenshot shows the G-BBS software interface with a sidebar containing various menu items like Admin, Call Center, and Audit Trail. The main area displays two tabs: 'Allocate by Zip Code' and 'Allocate by Area Code'. Below these tabs is an 'Allocation Summary' section with a 'View by Zip Code' radio button selected. A table shows address allocation details, including columns for Agent, Total Addresses, Unmatched Addresses, Total Chases, and Modified On. At the bottom right of the summary section are 'Assign' and 'Remove' buttons.

Reassign button is displayed

This screenshot is identical to the previous one, showing the G-BBS software interface with the 'Allocate by Zip Code' tab selected. The 'View by Zip Code' radio button is selected in the Allocation Summary section. The table and 'Assign'/'Remove' buttons at the bottom right are also present.

Remove button is displayed

This screenshot is identical to the previous ones, showing the G-BBS software interface with the 'Allocate by Zip Code' tab selected. The 'View by Zip Code' radio button is selected in the Allocation Summary section. The table and 'Assign'/'Remove' buttons at the bottom right are also present.

ViewByAreaRadioButton is displayed
